

Year 5

Monday 30th March

Year 5

Hello Year 5. Hope you are well and keeping yourself busy with activities I have set for you. Just a quick update on things to do this week. Keep looking at your pack and working on the activities there. Remember to take brain breaks, do a little mindfulness yoga. Then try some of the other ideas I have suggested.

Reading

Reading as much as possible - think of new and creative places to read. Try reading a range of different things like cook books, instructions.

Read in different voices, try singing a few lines to make it interesting.

Whilst reading, make a bank of all the interesting or unfamiliar words you come across. You could create a dictionary or emulate some of our close reading vocabulary activities.

Oliver Jeffers will be reading his books once a week—follow the link to find out more. <https://www.oliverjeffers.com/books>

Other ideas:

Impress Mrs Coombes, learn some Spanish
<https://agreenmouse.com/spanish-for-children/spanish-activities-for-children/>

You could create some Spanish dishes

<https://thelatinkitchen.com/recipe-categories/family-friendly>

For Art, why not do some observational drawing. Find something in your garden and practice your technique of shading and cross hatching. Or, try your hand at perspective drawing.

TTRock stars

Regular rehearsal on TT Rocks stars in the bandstand areas and the sound check, for around 10 minutes each day. Challenge yourself, can you beat your score?

Practice the timetables you are unsure of. You could try creating board or card games to help you recall these.

Have a go creating timestable facts mind maps, like we do in class.

Keep fit and active

Jo Wicks has released a way up every morning. Try this and keep fit. There is also Cosmic kids and mindfulness yoga videos on YouTube which you can use.

Create your own game using only one piece of sporting equipment. This could be a skipping rope. Get creative.

E.g. How many skips in 20 seconds. How many times jumping backwards?

Purple mash

I will be setting work on Purple Mash for after the Easter Holidays. However, you can go on to the ICT section and play in the coding part. You can go through 2 Code (chimp and gibbon) or 2 Go.
